Curriculum Vitae

Min, Ji-hong

KAIST @ Daejeon, KOR   `github.com/jihongmin63`   jihongmin.min@gmail.com

Research Interest

My research interest is the analysis, formalization and extension of the complex system, including the software and the brain. Recently, I am working on supporting theoretic background to the specification of the programming languages.

Related Courseworks

- CS.40204 Program Reasoning
- CS.40503 Automated Software Testing (in progress)
- CS.50200 Theory of Programming Language
- CS.50204 Program Analysis (in progress)
- BCS.40041 How AI and the Brain Work
- BiS.40207 Computational Neuroscience

Education

KAIST (Korea Advanced Institute of Science and Technology) — Daejeon, KOR
Bachelor of Science expected in *Mathematical Science* and *Computer Science* — Feb. 2024 - Present
Minor in *Individually Designed Major*

Korea Science Academy of KAIST — Busan, KOR
Science-Talented High School in Korea — Feb. 2021 - Feb. 2024
- Summa Cum Laude in Integrated Science (GPA: 4.16/4.3)

Publications & Talks

Talks

1. Sukyoung Ryu, Seokhun Jeong, Jaehyun Lee, and Jihong Min, "Mechanized Specifications for Real-World Programming Languages,"The 47th ACM SIGLAN Conference on Programming Language Design and Implementation (PLDI) Tutorial, June 2026.

Projects & Research Experience

Programming Language Research Group @ KAIST — Dec. 2025 - Present
Advisor : Professor *Sukyoung Ryu* — School of computing, KAIST
- Propose an verification system for the specification of the programming language based on SpecTec

Computational Cognitive Neuroscience Lab — Jun. 2025 - Dec. 2025

Advisor: Professor *Yul HR Kang* Department of Bio and Brain Engineering, KAIST

- Design prospect theory based RL models to explain increased exploration behavior in loss-averse agents
- Develop a bayesian inference framework applicable to cognitive tasks, in collaboration with lab members

Honors and Awards

KAIST Presidential Fellowship 2024 - Present

KAIST's fellowship program for selected top students

- 10M KRW Budget for International Exchanges
- Various Specialized Opportunities

The National Scholarship for Science and Engineering 2024 - Present

Scholarship of Korea supporting undergraduates with strong academic performance in science and engineering

Skills

Programming Languages: Python, C, OCaml, Rocq, SpecTec
Libraries, Tools & Technologies: PyTorch, LaTeX
Languages: Korean (Native), English (TOEFL iBT 98; CEFR Level C1)

Leadership & Extra Activities

KAIST Times Feb. 2024 - Dec. 2025

Official student-run newspaper representing KAIST and Daejeon Innopolis

- Served as a reporter and section chief; covered campus and external current affairs

UCB Summer Exchange program Jun. 2024 - Aug. 2024
